

## 1/4"+3/8"+1/2" padrunvõtmete komplekt CHROMEplus, 195 osa

Tootenumber: 918.0795

EAN: 4042146693513

Soodushind: 123,00 € \*

### Kirjeldus

- 6-kant
- FlankTraction-profiil
- kõrgläikega kroomitud
- kroom-vanaadium
- stabiilses plastkohvris

### Omadused

|                        |                                                         |
|------------------------|---------------------------------------------------------|
| Materjal1:             | kvaliteetne kroomvanaadiumteras, kõrgläikega, kroomitud |
| Nelikantajam tollides: | 1/4"+3/8"+1/2"                                          |
| Pakendi kõrgus mm:     | 95                                                      |
| Pakendi laius mm:      | 354                                                     |
| Pakendi pikkus mm:     | 426                                                     |
| Pakendisisu:           | 1                                                       |
| Tagumine pöördnurk:    | 5°                                                      |
| hammas:                | 72                                                      |
| kaal g:                | 10000                                                   |
| narre:                 | ja                                                      |
| osasid komplektis:     | 195                                                     |
| pakend:                | Plastikkohver                                           |
